SUMMARY:

Frontend Engineer with **4.2 years of experience** developing enterprise and customer-facing web applications across **fintech, CRM, and business management platforms**. Hands-on experience with **React.js, Next.js, TypeScript, and JavaScript**, building reusable UI components, managing application state with **Redux and Context API**, and integrating REST APIs for complex business workflows. Currently contributing to **SBI Cards platforms supporting a 10M+ customer base**, with a focus on accessibility, responsive interfaces, and frontend performance. Experienced in Agile environments, collaborating with frontend, backend, design, and product teams to deliver reliable and maintainable applications.

SKILLS:

- **Frontend Technologies:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, DOM Manipulation
- **UI & Styling:** Material UI (MUI), Tailwind CSS, Bootstrap, Ant Design, Styled Components, Responsive Design
- **State & React Patterns:** Redux, Redux Toolkit, Context API, React Hooks, Custom Hooks
- **API & Data Handling:** REST APIs, Axios, Fetch API, React Query, API Integration, Error Handling
- **Performance Optimization:** SSR, SSG, Lazy Loading, Code Splitting, Dynamic Imports, React.memo, useMemo, useCallback
- **Accessibility:** WCAG 2.2 AA, ARIA, Semantic HTML, Keyboard Navigation, Screen Reader Support
- **Testing:** Jest, React Testing Library
- **Build & Development Tools:** Git, GitHub, Webpack, Vite, npm, CI/CD, Figma, VS Code
- **Engineering Practices:** Agile/Scrum, Reusable Components, Modular Architecture, Code Reviews, Debugging, Cross-Browser Compatibility

PROFESSIONAL EXPERIENCE:

IKOKAS Technologies PVT LTD, Noida

December 2025 - Present

Software Developer

- Developed and maintained **Next.js and TypeScript** applications for SBI Cards, delivering **10+ customer-facing pages** across **search, card comparison, card details, and landing pages**.
- Built 60+ reusable UI components using **React Hooks, Context API, and modular frontend patterns**, following **WCAG 2.2 AA** guidelines including semantic HTML, ARIA, keyboard navigation, and screen-reader support.
- Integrated **REST APIs** and handled loading, validation, error, and data states across customer-facing workflows.
- **Improved frontend performance by 20%** through **lazy loading, code splitting, dynamic imports, and React rendering optimizations**, resulting in faster page rendering and more responsive customer-facing experiences.
- Contributed to **frontend architecture, code reviews, and production support**, collaborating with backend engineers, designers, and product teams in an **Agile environment** for platforms supporting a **10M+ customer base**.

Axonas Consulting and Business Services

October 2023 - December 2025

Software Developer

- Developed scalable B2B web applications using **React.js, Next.js, TypeScript, and JavaScript**, building reusable components and responsive interfaces for complex business workflows.
- Built **modular frontend architecture** across CRM, Sales, Inventory, dashboards, and reporting modules using **Tailwind CSS and Styled Components**, with REST API integration and responsive frontend design.
- Collaborated with **backend teams** on **REST APIs, role-based access, API workflows, and Razorpay integration**.

- Developed **reusable React.js and Next.js components** using **Redux, TypeScript, and REST APIs**, building responsive interfaces with **maintainable component architecture and cross-browser compatibility**.
- **Built product and inventory management workflows** for **Miravia Marketplace Integration**, working with API-driven data, product listings, inventory synchronization, and reusable UI components.
- Enhanced **listing workflows and data synchronization** for **vidaXL Marketplace Integration**, improving marketplace data consistency and reducing operational errors.

SELECTED PROJECTS:**SBI Cards Digital Platforms** | sbicard.com*Next.js | TypeScript | REST APIs | WCAG 2.2 AA*

- Developed and maintained customer-facing digital journeys including search, card comparison, card details, landing pages, and digital card experiences using **Next.js and TypeScript**.
- Built reusable frontend architecture using **React Hooks, Context API, and modular patterns** & implemented **WCAG 2.2 AA** practices including semantic HTML, ARIA, keyboard navigation, and screen-reader support.
- Optimized frontend rendering through **lazy loading, code splitting, dynamic imports, and React rendering techniques**, improving responsiveness across customer-facing workflows.

Enterprise Management System*React.js | JavaScript | REST APIs | Bootstrap*

- Developed **CRM, Sales, and Inventory modules** with quotations, invoicing, purchasing, dashboards, reporting, and role-based workflows for enterprise business operations.
- Built reusable interfaces and integrated **REST APIs** to manage complex business workflows, data states, and role-based access.

Asset Management System*React.js | JavaScript | REST APIs | Bootstrap*

- Developed a **multi-location asset lifecycle platform** covering asset allocation, checkout/returns, AMC, warranty, repair, and maintenance workflows with **responsive interfaces and REST API integration**.

EOU Management System*React.js | JavaScript | REST APIs | Tailwind CSS*

- Developed an analytics-driven **EOU management platform** for **BOE processing, stock and inventory tracking, dashboards, and operational reporting**, integrating REST APIs for BOE and stock-related business insights.

Miravia Marketplace Integration | cedcommerce.com/miravia-marketplace-integration*Next.js | Redux Toolkit | TypeScript | REST APIs*

- Developed **product and inventory management workflows** using Next.js, Redux Toolkit, TypeScript, and REST APIs, building reusable components for marketplace operations and API-driven data.
- Implemented **product listing and inventory synchronization workflows**, managing application state and ensuring consistent product and inventory data across marketplace operations.

vidaXL Marketplace Integration | cedcommerce.com/marketplace-integration/sell-on-vidaxl*React.js | Redux | TypeScript | REST APIs*

- Developed and enhanced **product listing and marketplace workflows** using React.js, Redux, TypeScript, and REST APIs, with reusable components for product management.
- Implemented **product data synchronization and API-driven workflows**, managing application state and improving data consistency while reducing operational errors.

EDUCATION:PSIT College of Higher Education, Kanpur | **Bachelor of Computer Applications (BCA)** | Jul 2019 – Jun 2022
